License #AL #12169

WHY DO I NEED AN EXTENDED WARRANTY?

Unfortunately, mechanical failures happen every day. Manufacturer's limited warranty does not cover a diagnostic, labor or refrigerant.

With **Premium Protection Plan** you can rest assured if the unfortunate happens to you, it costs nothing!

WHAT DOES PREMIUM PROTECTION PLAN COVER?

Premium Protection Plan provides comprehensive protection against any, unexpected mechanical failures that your HVAC system might have during the life of the agreement.

Our plans are inclusive of the manufacturers limited parts warranty and cover **diagnostic, refrigerant** and **labor** charges associated with certain repairs.

HOW LONG DO I HAVE TO PURCHASE A WARRANTY?

Our plans can be purchased up to **2 years** from the equipment start-up date.

Coverage is for Residential Systems Only. Includes diagnostic, labor and refrigerant for outdoor condenser, furnace, air handler/coil and thermostat. Some exclusions may apply. Please see terms and conditions for more details.
